DETAILED ACTION

Claim Rejections - 35 USC § 112

1a. Claims 1-3, 5, 14-16 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The new amendment to claim 1, having "a catalyst which contain transition material such as chromium or titanium" is new matter.

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-3, 5, and 16 are rejected under 35 U.S.C. 102(b) as being anticipated by Bontemps et al (US 5,382,638).

As to claim 1, Bontemps et al disclose a method for activating olefin polymerization catalyst which contain transition metal, chromium as an active component (col. 1, lines 10-40), wherein the steps comprising introducing gas in the lower section (figures) containing a layer of catalyst, forming a fluidized bed, treating the catalyst in the fluidized bed by activation treatment

Art Unit: 1725

(col. 3, lines 9-15), discharging the reactor substantially residual free, and reactor tapers downward (figure).

As to claim 2 and 3, the separator is a cyclone (col. 4, lines 38-39).

As to claim 5, the additional member is a gas (9) into a fluidized bed (figure 2).

As to claim 16, there are no gas distribution plate.

Allowable Subject Matter

3. Claims 14 and 15 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

The prior arts of record fail to teach the angles as claimed.

Response to Arguments

4. Applicant's arguments with respect to claims 1-3, 5, and 16 have been considered but are moot in view of the new ground(s) of rejection set forth in paragraph 2.

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period

Art Unit: 1725

will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
